

Docking station 接驳台

接驳台 CONVEYOR

产品简介

产品名称:接驳台

产品用途:用于SMT生产线上PCB板暂停过渡

产品特点:

- 全焊接钣金结构框架
- 采用可编程PLC工控板系统
- 全铝型材结构输送轨道, 坚硬美观
- 滚珠丝杆调宽窄
- 中大力德电机

Product daescription

Product name: Connection station

Product Usage: Used for PCB suspension transition on SMT production line

Product features:

- All welded sheet metal structure frame
- Programmable PLC industrial control board system
- All aluminum structure conveyor track, hard and beautiful
- Ball screw width and narrow
- Zhongdade Motor

产品 product 名称 name		型号/Model number

产品参数

产品特点/Product characteristics	接驳台/Docking station
规格/Specification	轨道长度/Track length(mm): L=500~1000
	送板方向:左至右 右至左/Sending direction: left to right to left
	PCB板有效尺寸(长*宽)/Effective PCB board size (length * width)mm: 80*50-460*330
PCB输送高度/PCB transfer height	900±20(mm)
设备外型尺寸(长*宽*高) mm Equipment dimensions (length * width * height) mm	根据选型拟定尺寸/Size according to selection
重量(KG)/Weight (KG)	50~80 (与型号匹配重量)/(Weight to model)
设备电源/Equipment power supply	AC220 Hz50
